Did you know...?

Cell **oxidative stress** isn't always harmful — in fact, it plays a **key role** in immune response and tissue repair.

An adequate intake of zinc, like that provided by **DefenderDuck**, helps protect cells from excessive **oxidative stress** and supports balanced immune defense.

We also recommend:

FlexyBear: ideal for people over 40 or those recovering from surgery who want to maintain healthy joints, cartilage, and bones.

SleepyKoala: perfect when stress keeps you awake. Helps relax body and mind, promoting natural sleep without dependence.

PandaRey: ideal during periods of fatigue. Helps improve vitality during physical and mental exhaustion while supporting overall balance.

Warnings:

do not exceed the recommended daily dose; keep out of reach of children under 6 years old; supplements should not replace a varied, balanced diet and a healthy lifestyle; if pregnant, breastfeeding, or taking medication, consult your doctor before use; store in a cool, dry place away from heat sources.

DefenderDuck is a food supplement notified to the Italian Ministry of Health (178042).

Try **DefenderDuck:** with zinc to strengthen your immune system.

VEGAN

Up to 2 strips
per day,
preferably in the
morning.

Dissolves in
seconds
no water needed.

Easy to carry in
your bag,
when traveling, or
at the office.

Perfect during
times of stress,
recovery,
or after workouts.

**Helps your body respond better
during challenging periods —
symptoms may last less.**

Always carry it with you:
fits in your pocket and **acts in minutes.**

Ideal if you work in enclosed spaces
helps your defenses fight off germs.

Great for athletes — supports recovery and
immune response after intense exercise.

Drops, syrups, even fizzy tablets — you've tried them all.

Yet every year, with the first chill, **someone at home still gets sick for weeks.**
What if you could strengthen your immune system naturally — quickly and easily?

DefenderDuck is the first sublingual strip that dissolves in seconds, helping strengthen
your immune system while protecting cells from excess oxidative stress.
