Do your days need a real energy boost?

DragonPower:

40 mg of caffeine in an energizing strip that keeps you focused—without the jitters.

Strawberry and Mint

- Dissolves in seconds—no pills, no water.
- (4) Ideal for those seeking natural energy support without sugar or harsh stimulants.
- With **natural** caffeine, ginseng, B vitamins, and vitamin E.
- Supports focus, concentration, and energy metabolism.
- Convenient to take anytime—at home, in the office, or while traveling.

"Tiredness is normal—I sleep little, I work a lot... isn't that just adult life?"

How many times have you thought that? Coffee, energy drinks, or quick snacks no longer work, and by midday, you're drained.

DragonPower is the first sublingual strip that dissolves in seconds, providing a balanced boost of neuro-active nutrients to power your day—without dependence or palpitations.

What does DragonPower contain and how does it help sustain your energy every day?

Natural caffeine (40 mg)*		
known to reduce mental		

Vitamin B6 (1.4 mg)

supports protein metabolism, a key

process for energy

release.

fatigue and improve alertness.

al for adults over 40 or in recovery who cartilage, and bones.

supports digestion after meals high in sugars or carbohydrates. Perfect when bloating occurs

perfect for periods of deep fatigue. May enhance vitality and balance during physical

or mental exhaustion.

Did you know...?

Energy drinks can cause palpitations mainly due to their high caffeine levels and additional stimulants like taurine.

DragonPower is different: it combines low-dose caffeine with a full spectrum of B vitamins and vitamin E to support natural, balanced energy-without dependency or crashes.

Warnings:

do not exceed the recommended daily dose;

keep out of reach of children under 3 years old;

supplements should not replace a varied, balanced diet and a healthy lifestyle; if pregnant, breastfeeding, or taking medication, consult your doctor before use; store in a cool, dry place away from heat sources

DragonPower is a food supplement notified to the Italian Ministry of Health (177926).
