

Why choose LemurBiotics?

Works faster:
LemurBiotics activates enzymes **instantly**, right under the tongue.

Enhances digestion:
dissolves in seconds **without water**, supporting intestinal comfort.

Beyond probiotics:
combines enzymes, probiotics, and apple cider vinegar to support every phase of digestion and **rebalance** the microbiome.

Premium ingredients:
each component is carefully selected based on scientific studies—not trends.

Did you know...?

Digestion doesn't begin in the stomach but in the mouth—thanks to salivary enzymes. Yet most supplements don't activate at the right time.

LemurBiotics follows this natural process: it dissolves under the tongue to kickstart digestion early, helping reduce fermentation and bloating before your meal even starts.

We also recommend:

SugarBomber:
supports digestion after meals high in sugar or carbohydrates. Ideal when bloating occurs after desserts, snacks, or wine.

SleepyKoala:
if stress causes bloating and affects your sleep. Helps relax body and mind, promoting rest without dependence.

DefenderDuck:
your ally for intestinal balance during seasonal changes. Helps strengthen natural defenses and support the microbiota over time.

Warnings:

do not exceed the recommended daily dose;
keep out of reach of children under 3 years old;
food supplements should not replace a varied, balanced diet and a healthy lifestyle;
if pregnant, breastfeeding, or taking medication, consult your doctor before use;
store in a cool, dry place away from heat sources.

LemurBiotics is a food supplement notified to the Italian Ministry of Health (181513).

Try LemurBiotics:
Enzymes and probiotics for intestinal balance

ThinSkyn®

Feeling bloated after meals
—even when you eat healthy?

LemurBiotics: the strip with a blend of enzymes that supports natural digestion.

ThinSkyn®

King of **WATER-FREE** supplements ✓

Health Canada

You've tried eating light, avoiding certain foods, even skipping dinners with friends... **yet your stomach still feels bloated.**

Your gut may simply need the right support—**before** digestion begins.

LemurBiotics is the first sublingual strip that dissolves in seconds, helping your body digest naturally while supporting microbiome balance through the benefits of apple cider vinegar.

What does LemurBiotics contain and how does it support digestion?

Apple Cider Vinegar (50 mg)* traditionally used to help regulate blood sugar and support microbiome balance.**	Bacillus coagulans — 2 billion CFU (20 mg)* aids the digestion of carbohydrates and proteins while supporting microbiota composition.***	Enzyme Blend (25 mg)* includes protease to break down proteins, lipase for fats, and amylase for carbohydrates.****

Take 1 strip 30 minutes before meals
or after eating if bloating occurs.

Dissolves in seconds
—no water required.

Convenient to carry—in your bag,
while traveling, or at work.

Ideal during stress,
irregular meals, or after antibiotic use.

Helps reduce post-meal bloating thanks to 2 billion Bacillus coagulans.

Always carry it with you: fits in your pocket and works in minutes.

Supports intestinal balance even after antibiotics or periods of stress.

Enjoy your meals again—no guilt, no restrictive diets.
